MARINA'S OPERATION WAS RESCHEDULED

2 year old Marina was born with a bilateral cleft lip and palate. She lives on a farm in A ranos. Over the last couple of years, Marina has become fairly shy because of her condition.

Her procedure was supposed to be on Wednesday the 18th of August 2010. She will now be in theatre on Wednesday 29th of September 2010.

Marina's will gain her confidence after the operation—which happens to many of the older patients with her condition.

WE WERE THERE AT THE LAUNCH OF RACE FOR A SMILE WITH MADAME POHAMBWA

5 year old Ahrehannah braved the windy weather with her mum and traveled all the way from Groot Auab to be at the launch of Race For A Smile.

Ahrehannah will be having her surgery done on the 8th of December 2010. She is healthy and strong but we are waiting for her to weigh more than 5kg before her first operation may be done.

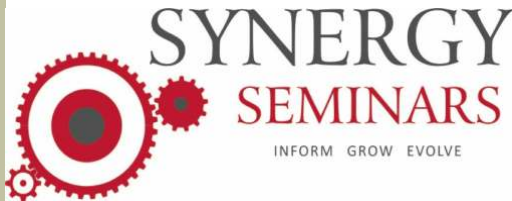

7month old Tjipenendjambi also took a short taxi ride from Okahandja park to be with us on the 24th of August for the launch. He was born with a unilateral cleft lip on the right-hand side. His operation was done in May. Now he is a health boy who is looking normal. We will be monitoring his growth and carry out any additional operations—should the need arise.

1year,6months old Tangeni has recovered very well. He is now waiting for his physiotherapy sessions to begin because, after all his operations, his right-hand side was left a little weak.

Give Tangeni some time and we will see him running around like a normal boy his age.

RACE FOR SMILE—25 SEPTEMBER (A Synergy Seminars Initiative)

Get your colleagues a team of your friends and enter Race For A Smile 2010. It will be a day of fun and laughter and all this while contributing to making a child "SMILE".
